KNOW YOUR BIBLE?

MADE IN THE UNITED STATES OF AMERICA

PREPARE FOR A SHOCK.

Everybody who uses this book is going to be per—fect—ly dee—lighted with it. But not at first. Oh, no; not at first.

At first, most of the people who use this book are going to be disgusted with themselves or with the author or both. They are going to find out how much—or how little—they know about the Bible. They are likely to discover that it is "how little" rather than "how much."

And they are going to blame it on me. They are going to say, "What fool questions! I could answer any sensible set of questions about the Bible, but these—pah!" Ours is an age of alibis.

All I can say is that if any one can get up a set of fifteen hundred questions on the Bible, covering all parts of it, and include a larger number of easy questions than I have included, I'd like to see him do it. I'd just like to see him do it.

I've tried to ask fifteen hundred questions which any one ought to be able to answer if he really knows his Bible; if he is acquainted—not with the minutiæ of the Bible, but with its broad general outlines. These questions do not call for a knowledge of genealogical tables, but of the chief Bible characters. They do not call for the details of Jewish history, and not a single date is asked for in all the fifteen hundred queries; but they do insist upon a knowledge of the Bible's most significant and interesting events, from cover to cover. The questions are not theological—perhaps some would find them easier if they were, for then they could air their theories; but they call for an acquaintance with the most beautiful and uplifting sentences and passages in all the sixty-six books of the Bible, the inspired wisdom on which all theology is based—or ought to be.

Said one on whom I tried these questions, and who failed lamentably, "What's the use of such questions, anyway?" No use, unless there is use in knowing the Bible, being at home in all parts of it, forming an acquaintance with Bible persons and happenings, becoming able to recognize Bible references in literature, and gradually absorbing the lofty Bible ideals. Many people, to judge from

such tests as these questions afford, find "no use" in the Bible beyond the twenty-third Psalm, the Lord's Prayer, the Beatitudes, the Ten Commandments (hazily remembered), and, in cases of extreme proficiency, the fourteenth chapter of John.

The more you use this book the more you will see the use of it. Using it, especially if you read the Bible references zealously, will gradually familiarize you with the Bible, with the whole Bible. You will begin to feel actually at home in the Book of books. Its splendor will grow upon you. You will be amazed by its variety, as you discover all kinds of literary forms in the Sacred Library, and you will begin to realize that it is indeed the literature of one of the most brilliant of races. You will be constantly hitting upon fascinating stories which you did not know were in the Bible. Before long you will be filled with wonder at the wisdom of the Book. You will see in it the summary of rules for success and happiness, peace and prosperity, a perfect guide for social well being, a statesman's manual, a comprehensive treatise on human life. And at last you will perceive with awe that this is not like other volumes; that through it God is speaking to you; that its words reach into the eternities and up to the infinite; that its pages acquaint you with the Father, and with his matchless love revealed through his only begotten Son. And so I dare to hope for an evangelistic outcome of these questions.

But don't be afraid of them.

"Who was Maher-shalal-hashbaz?"

Few of these questions are as hard as that.

"Where was Christ born?"

Not all of them are as easy as that.

Most of them lie between the two extremes, and somewhere between the two extremes most readers will find themselves and their friends.

No matter. You want to know the Bible, and this is a good way to go about it. You must begin from your present state of knowledge or of ignorance. The essential thing is to begin. Then, having begun, the essential thing is to keep on.

Start with the First Series and grade yourself two points for every question you answer with a fair degree of accuracy. Be easy with yourself at first—you'll need it. After a while, you may increase your rigor.

Then go on to the Second Series, and so on till you have graded yourself on all thirty of them. Fifteen hundred questions at two

per cent each means 3,000 per cent for a perfect score. You'll be lucky if you get 1,000.

The problem is to lift that 1,000—or 500, or whatever—up to 3,000. Tackle the problem, for it is well worth tackling.

Begin again with Series One and see how much you can remember. Your first grade may have been 30 on that Series, and now it is 50, perhaps even 60 or 70; splendid progress! You feel the glow of achievement. Bible knowledge is within your grasp. You gallop on through all of the thirty Series. Your score is now 2,000, an improvement of 100 per cent. Glorious!

You can hardly refrain from trying the questions on your family, on your friends and acquaintances. But wait just a little. Be canny. The full exhilaration of superiority comes only when you can reel off all the questions—or practically all—and know all the answers without having to look in the back of the book. Then you can exult in your new-found knowledge and make no mention of its newness. Then you can inquire after Maher-shalal-hashbaz with an assurance that will impress every one within sound of your learned voice. Review the book till you have attained 3,000 per cent, or have come within sight of it.

Then launch yourself on an unarmed world.

Tackle Sunday-school teachers. Expose their shallow pretensions without pity. Do not leave them till they cry for mercy, and ask where they can get a copy of this book.

Tackle infidels, or those who pretend to be infidels, and show them how little they know about the book they have been condemning.

Tackle the real Bible lovers. They will surprise and delight you with their proficiency, and in their turn they will be glad to be introduced through these questions to parts of the Bible which perhaps they have been neglecting.

Use the book on your Sunday-school class. They will find these questions as interesting as the jolliest game they ever played.

Inveigle some member of your family into the affair, some friend or a mere acquaintance. Ask the questions of each other. Get up a vigorous contest. See which one can get a hundred first in any Series; then in five Series, in ten, in the entire thirty.

Try it on your young people's society. Set a number of the members to studying the book for an old-fashioned "spell-down," only the questions will take the place of the words given out to spell. There is material here for a capital social entertainment.

It goes without saying that you have in these fifteen hundred innocent queries a fine answer to the problem of Sunday afternoons and of the home evenings.

The entire Bible has been laid under contribution for these questions—every Book, almost every chapter and page. No one can be ready with these fifteen hundred answers and not gain a first-rate knowledge of his Bible.

The text used is the King James—not because it is the most accurate translation, for it is not, but because it is the Bible which has entered into the literature and life of the race, and for all purposes except exact study it will never be displaced.

The author of this book has left a few mistakes in it,—say three, or may be two,—because nothing tickles the readers of a book of this sort more than to discover an error in it, and we aim to please.

The Quizzes in the back of the book present a grouping of the questions under twenty-one different classifications. They are for the use of teachers and others who wish to stimulate Bible study along specific lines; Bible geography, for instance. After the book is mastered in the usual way, it will prove freshly interesting to take the Quizzes and tackle it from their new viewpoints.

It is hoped, also, that the use of these questions will stimulate many to read the Bible straight through from the first word of Genesis to the last word of Revelation. Many wonderful discoveries will be made in the course of the journey, and Bible knowledge will be knit together into a unified and vitalized whole. After this is done, the next thing might well be the reading of some Bible history, such as that by Blaikie, or Edersheim, or Stanley, or Geikie.

In short, the aim of this little book is to furnish recreation in the first place, but in the second place to arouse in the reader so great an enthusiasm for the Book of Books that he will not rest content with the answers to questions, even the answers to so many as fifteen hundred questions, but will go jubilantly on in the pursuit of the Bible knowledge which means the knowledge of the Son of God, the blessed Redeemer of the World.

THE BIBLE CROSS-WORD PUZZLE BOOK

By S. K. DAVIS

A GREAT breadth of knowledge can be obtained through the working out of cross-word puzzles. There are many interested in doing such who will welcome this book as an opportunity to accumulate a broader knowledge of Bible facts, places, etc.

The author has confined the text to the Bible, except in a few individual cases where slight deviations have had to be made. But it is a truly Bible volume. Not too difficult, but still enough so as to test one's knowledge and to create a desire for further knowledge.

Contains 50 puzzles, with diagram answers in the back and Bible references when necessary. *Cloth bound. Price, $1, postpaid.*
